

Team-Pair-Solo

STEPS

1. **TEAM:** Teammates work together solving a problem.
 - Teacher announces the answer and explains the strategy.
 - If correct, students advance to pair work. If not, students solve another problem as a team.
2. **PAIR:** Students work with shoulder partner to solve similar problems.
 - Partner A solves first problem.
 - Partner B coaches and praises.
 - Switch roles.
 - If correct, students advance to solo. If not, move back to solving problems as a team.
3. **SOLO:** Each student works alone to solve new, similar problems.
